

Laptop Recommendations for Eclipse's Boost Flow and Eclipse RSR

Processor

11th, 12th and 13th Gen intel mobile processors

- Core i7

AMD Zen 4 mobile processors

- Ryzen 7 or Ryzen 9

RAM

Recommended - 32GB

Docker is required to run Speechmatics on the laptop. When Eclipse and Docker are running, the RAM usage can reach 10GB. Since most users will also run other applications, 32GB RAM is recommended for smooth operation.

Storage

1TB SSD Recommended
500GB SSD Minimum

Speechmatics audio files take up a significant amount of space.
